

Math Data Collection Activity

using iPads and the Educreations app

Student Directions

PART 1: Open the Educreations app on your iPad. On the first slide, give this activity a title and write your name. Then, make a slide for each of the following data points. Walk around the school and collect the following data from exactly 7 different adults. Record this information on the iPad.

- Slide 2: # of foreign countries they have visited/lived in
- Slide 3: Month of their birthday (1-12)
- Slide 4: # of children they have
- Slide 5: Year of their car
- Slide 6: # of TVs in their house
- Slide 7: # of inches tall they are
- Slide 8: # of bones they have broken
- Slide 9: # of letters in their last name

PART 2: Now choose one data set and find its:

- Maximum
- Minimum
- Mean
- Median
- Mode
- Range

Present this information on Slide 10.
