

ToonTastic

Create your own cartoon
with ToonTastic!

Choose characters, a setting
and emotions and create
your own story!

Plan your ideas and create!
Remember to use all elements
of the story.

Teacher notes

Use these organizers to help your kids plan a story. They can cut and paste the characters, settings and emotions they plan to use on the sheet. Then, plan their story with dot jot notes on the plan your story sheet.

After students create and post their videos to ToonTube, have a class viewing party where students can give an award to their friends.

For Extra Fun:

You could also cut out the characters and put them in a bag and have them pull the characters, settings and emotions randomly to create a silly story!

Prepare your story!

What background is your story going to have?

Which characters will you include?

Which feelings will you include (music background)

Plan your story!

Where does your story take place?

What is the big problem in your story?

How is your character handling the conflict? What happens next?

How is the problem going to be overcome?

How is your story going to end?

Awards!

What was your favourite part of your friend's video?

What award would you give your classmate?

CHARACTERS

Thanks!

Thanks for checking out our activity!
Download our class' favourite app
"ToonTastic" on iTunes

<http://itunes.com/apps/toontastic>

If your kids love it as much as mine do
you may want to get the "All-Access
Pass" to unlock all current and future
characters!

Thanks to the friendly people at
ToonTastic for sharing their clipart with
us for educational purposes.
